

**BENEFITS**

- **FAST INSTALLATION.** Selftapping screw, is not necessary pre-hole.
- Fixing to profiles and metal sheets from 1 to 4mm.
- Wide head, designed for clamps assembly.
- **Material:**
 - Hardened steel.
 - Coating: zinc plated.
 - Mechanical benefits: according to DIN 7504.

INSTALLATION PROCEDURE**Installation in 2 steps**

1. Place the clip or material to assembly.
2. Screw in.

MAIN DIMENSIONS (mm)

Ø	Screw length	Drilling thickness	Fixing thickness	Ø head	Head height
4.2	13	1-3	6 max	9.5	2.5
4.8	16	2-4	7 max		

APPLICATION

Fixing of different clamps (F, U...) to steel profile.
