

## Bluetooth USB Adapter

Images are for demonstration only.

©2024 TP-Link 7106511187 REV1.3.0

### 1 Connect to a Computer

- a. Disable all existing Bluetooth devices (both built-in and third party) from the **Device Manager** on Windows.
- b. Insert the adapter into a USB port on your computer directly.

**Tip:**

For models with an adjustable antenna, you can try to adjust the direction of the antenna for a better performance.

### 2 Install Bluetooth Driver

- a. Download the latest driver at <https://www.tp-link.com/download-center>.

**Tip:**

For Windows 11/10/8.1 system, the driver installation will automatically start when connected to the internet. If not, please download the driver manually.

- b. Extract the downloaded file and run the **setup.exe** to start driver installation.
- c. Follow the instructions to complete installation.
- d. Once the process is finished, restart your computer.

**Note:**

- Your TP-Link Bluetooth USB adapter will be listed in the **Device Manager** when the driver is installed correctly.
- If the driver installation fails, disable the antivirus software and firewall, then try again.
- In Windows 7, if a Windows Security message pops up, refer to <https://www.tp-link.com/faq-2760.html>.

## 3 Pair With Bluetooth Devices

- a. Right-click the  (Bluetooth) icon on the taskbar.

**Note:**

If the Bluetooth icon is not displayed, refer to FAQ > Q1.

- b. Select **Add a Bluetooth Device** or **Add a Device** to scan for available devices.

- c. Select your Bluetooth device from the list and follow the onscreen instructions to complete pairing.

**Note:**

Make sure your device's Bluetooth is enabled and discoverable.

## Frequently Asked Questions(FAQ)

### Q1. What should I do if the Bluetooth icon doesn't appear?

- A1. Make sure you have turned on the Bluetooth in Windows settings.
- A2. If there are other Bluetooth devices on the computer, disable them in **Device Manager**, then insert the adapter and try again.

### Q2. Why the adapter is not working with my Bluetooth device?

- A1. Make sure your device has BLUETOOTH function.
- A2. Make sure you have installed the latest Bluetooth driver on the computer. You can check the published driver versions from <https://www.tp-link.com/download-center>.
- A3. For devices with non-standard Bluetooth protocols, such as Logitech Mouse, there may be some compatibility problems.

### Q3. How many devices can the adapter connect to at a time?

- A1. The adapter supports connecting up to seven Bluetooth devices concurrently, including Bluetooth headsets, keyboards, and game controllers. However, for Bluetooth audio output devices (e.g., headsets and speakers) and audio input devices (e.g., microphones), only one of each may be used at any time.
