

Addressable Output Module

- IP 65 Protection
- Transparent lid
- Easy mounting

SensoIRIS MOUT IP65 is a potential output control module designed for application in addressable fire alarm systems, supporting TTE communication protocol. The module is suitable for integration of conventional sounders to the addressable fire alarm installation. SensoIRIS MOUT is powered by the fire alarm control panel. The module is mounted in a separate plastic box suitable for wall mounting with IP65 protection and possible for outdoor installations.

Features

- IP 65 Protection
- Potential (24VDC) output
- Build-in isolator
- Enclosure box
- PC material
- Transparent lid for module status reading
- More room for cables inside the box

Technical Specifications

Operating Voltage Range	16 - 32VDC
Consumption, stand-by mode	270µA@27VDC
Outputs, electrical characteristics (max.)	DC 28V/0.75A; AC 120V/0.5A
Current consumption with 1 LED on	3.7mA
Wire Gauge for terminals	0.4mm ² - 2.0mm ²
Operating temperature	-35°C to +60°C
Relative humidity resistance	(93 ± 3)% @ 40°C
