

Addressable mini module with one input

- Compact size for built in mounting
- Certified according EN54-18

The SensoIRIS MINP M is a compact module with one input. The module monitors and transfers to control panel the state of this input - state ON or state OFF. SensoIRIS MINP M is designed for built-in installation in the mounting box of the device (PCB only); or it can be situated into a small plastic box for wall mounting.

Features

- Compact size for built in mounting
- Certified according EN54-18

Technical Specifications

Operating Voltage Range	15- 32VDC
Permissible voltage ripple	3.0Vpp@27VDC
Max. current consumption	0.1mA@27Vdc
Max. cross-section of the cable	0.5-2.5mm2
Relative humidity	<93% @ +40°C
PCB Dimensions	43x25mm
Weight	17g
Operation temperature	-35°C to +60°C
