### **TECHNICAL DATA SHEET: CCT**

#### **BASE MATERIALS**

- Concrete
- Concrete block
- Solid brick
- Steel

# APPROVALS AND CERTIFICATES

#### **BENEFITS**

- Multidiameter.
- Adaptable to different fixing bases such as TBB, TBBD, BBT, TB, etc.
- Compatible with E2000PG and PVC channels.
- Temperature range from -40°C to +85 °C continuously.
- · Black color is UV resistant.
- Made of polyamide 6.6 V2 UL 94.
- RoHs
- Free of halogens.
- · Free of silicones.
- Two colors available: natural and black RAL 9001
- Installation temperature from -10°C to +45°C.

#### **INSTALLATION PROCEDURE**

Insert the tip of the cable tie, tighten it manually (or with a tool) until the cables are completely fixed (or the product you are trying to knot), then cut the excess from the flange with a tool.

#### **BREAKING LOADS**

Width (mm)	Maximum recommended load (Kg)
2,5	8
3,6	18
4,8	22
7,6	55
8,8	80
9,0	80
12,6	110

#### **STORAGE**

- It is recommended to store the cable tie in place with a temperature around 23°C and a relative humidity of 50%.
- Once the packaging is opened, it must be finished as soon as possible.
- Always close the bag after using the cable ties to maintain the correct humidity (our standard bag ensures that the water content in the product is constant).
- Do not store or expose the product directly to sunlight.
- Keep the product away from any heat source as they can affect the mechanical properties of the cable ties.

#### **APPLICATIONS**

For fixing plastic pipes for electrical and heating installations.
